

Polyimide film and silicone adhesive

FEATURES

Offers firm adherence with an anti-static, conductive polymer, acrylic adhesive Perfect for use in static-sensitive areas. Applications: Office/Clean Room/Work Station, Manufacturing, Packaging, Removing Contaminants, Label Stock.

PHYSICAL CHARACTERISTICS :

Carrier Adhesive	Polyimide Film (0.025mm)
Adhesive Type	Special Silicone (antistatic)
Base Thickness	25µm
Total Thickness	0.06mm
Adhesion to Stainless Steel	≥6.25N/25mm
Temperature Resistance	300C Short term / 260C Long term
Elongation at break	≥50%
Voltage resistance	5-8 KV
Surface Resistivity	10⁵ 10⁹Ω
ESD (Antistatic)	Yes (≤100V discharge)
Flame retardant	Yes (UL)
Color	Amber
